Summary

Final-year Computer Science student at the University of Auckland (GPA 6.45/9.0) looking for a software internship. I have shipped one public full-stack app with React, ASP.NET Core, PostgreSQL and Docker. Available full-time in Auckland, Nov 2026–Feb 2027 (university vacation).

Education

University of Auckland, New Zealand

February 2024 – Expected late 2026

Bachelor of Science · Computer Science · GPA 6.45 / 9.0

Coursework: Data Structures, Algorithms, Software Engineering, AI Fundamentals. COMPSCI 399: I own the testing slice of a client product and wrote the functional test outline for the happy path and the failures.

Projects

LearnChain

2026

Gamified habit tracker — Microsoft Student Accelerator 2026 (Software)

learnchain-msa2026.vercel.app

Shipped a public full-stack app with JWT, BCrypt and role-based access. Frontend on Vercel; backend Docker + PostgreSQL on Render. Check-ins, streaks, XP and badges are enforced on the server so progress cannot be spoofed. xUnit tests reject a same-day duplicate check-in. AI companion uses tool-calling (create, rename, delete habits) only after a server check; bilingual UI.

React · ASP.NET Core · PostgreSQL · Docker · JWT · xUnit

Exterminatus

August 2024 – November 2024

A puzzle-action hybrid platformer

mason-liu-u.itch.io/genesis

Coordinated a 4-person team to a public itch.io build of a 2.5D parkour and puzzle game in Unreal Engine 5. I split the tasks, and in Blender I modeled 2 characters, 10+ scene assets and 2 narrative paths.

Unreal Engine 5 · Blueprints · C# · Blender

EEG Foundation Models Review

November 2025 – January 2026

Virtual placement — University of Leeds, Professor Faisal Mushtaq

Critical review of EEG foundation models under a virtual placement. Read the key papers, kept citations in Zotero, and wrote up strengths and limits with publication-trend charts in R.

R · Zotero

Microsoft Student Accelerator NZ

2025 – 2026

2026 software work is LearnChain, above. In 2025 I finished the Azure SQL modules, then practised on my own: sales EDA in pandas, a regression in scikit-learn, and image classification in PyTorch. That practice was not a programme submission.

Azure SQL · pandas · scikit-learn · PyTorch

Technical Skills

Programming	C#, TypeScript/JavaScript, Python, SQL; also C++, Java
Full-stack	React, ASP.NET Core, EF Core, REST APIs, JWT, PostgreSQL, SQLite, Docker
Data	pandas, scikit-learn, R
Cloud & AI	Azure SQL, TensorFlow, PyTorch
Tools	Git, Linux, Blender, Unreal Engine 5

Certifications

AWS Certified AI Practitioner	Nov 2025
AWS Certified Cloud Practitioner	Dec 2024
AWS ML Engineer – Associate	Sep 2025

Languages

Mandarin Chinese
Native

English
IELTS 7.5
