KIA ORA, I AM TIANCHENG LI

3RD YEAR COMPUTER SCIENCE STUDENT

Auckland, New Zealand +64 21 215 5176 tli637@aucklanduni.ac.nz

github.com/wumingsaberarcher linkedin.com/in/tiancheng-li-692880340

Summary

Third-year Computer Science student at the University of Auckland (GPA 6.45/9.0) targeting software engineering internships. Builds full-stack products with React, ASP.NET Core, PostgreSQL and Docker; AWS-certified (Cloud Practitioner, AI Practitioner, ML Engineer Associate). Available full-time in Auckland over the Nov 2026–Feb 2027 summer.

Education info

University of Auckland, New Zealand **February 2024 – Expected late 2026**

Computer Science Bachelor of Science

6.45 / 9.0

Expected graduation: late 2026 / early 2027. Relevant coursework: Data Structures, Algorithms, Software Engineering, AI Fundamentals. Capstone: TensorFlow model predicting in-game player behaviour (~85% accuracy).

Project

LearnChain **2026**

Gamified habit tracker (Microsoft Student Accelerator 2026, Software)

https://learnchain-msa2026.vercel.app

Built a full-stack web app (React + ASP.NET Core) with JWT auth, BCrypt, and role-based access; deployed frontend on Vercel and backend as Docker + PostgreSQL on Render. Implemented server-authoritative gamification (check-ins, streaks, XP/levels, badges) so progress cannot be spoofed from the client. Added an AI companion with tool-calling (create/rename/delete habits) plus bilingual UI.

React, ASP.NET Core, PostgreSQL, Docker, JWT

Exterminatus **August 2024 – November 2024**

A puzzle-action hybrid platformer

https://mason-liu-u.itch.io/genesis

Led a 4-person team to develop Exterminatus, a 2.5D parkour and puzzle game in Unreal Engine 5. Designed and modeled 2 characters, built 10+ scene assets and 2 narrative paths, and reduced development time by 20% through effective task delegation and project management.

EEG Foundation Models Review Project **November 2025 – January 2026**

Conducted a critical review of EEG foundation models under the guidance of Professor Faisal Mushtaq (University of Leeds) during a virtual placement. Analysed key literature, embedded Zotero citations, and generated publication-trend visualisations in R.

Microsoft Student Accelerator NZ **April 2025**

https://aumsa.azurewebsites.net/programs/

Completed Azure SQL modules (Introduction to Azure SQL; Deploy and configure servers) and independently finished the Data Science stream project, with a public runnable GitHub submission.

Technical Skills

Programming Languages

●●●●○

Python, C#, TypeScript/JavaScript, C++, SQL, Java

Full-stack

●●●●○

React, ASP.NET Core, EF Core, REST APIs, JWT, PostgreSQL, SQLite, Docker

Cloud & AI

●●●●○

AWS (Cloud Practitioner, AI Practitioner, ML Engineer Associate); Azure SQL; TensorFlow

Tools

●●●●●

Git, Docker, Linux, Unreal Engine 5

Certifications

AWS Certified AI Practitioner **1/11/2025**

Amazon Web Services

AWS Certified Cloud Practitioner **22/12/2024**

Amazon Web Services

AWS ML Engineer – Associate **27/09/2025**

Amazon Web Services

Languages

Mandarin Chinese

Native language

●●●●●

English

IELTS 7.5
